EDUCATION

Parul University

Vadodara, Gujarat

Bachelor of Technology in Computer Science and Engineering

2023 – 2027

- Current CGPA: 7.53
- Key Subjects: Data Structures and Algorithms, DBMS, Software Engineering, Web and Mobile Development, Operating Systems, Java, C, Azure Fundamentals.

TECHNICAL SKILLS

Programming: Java, Python, SQL, Object-Oriented Programming (OOP)

Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, JWT, REST API, Microservices

AI/ML Tools: NumPy, Pandas, Scikit-learn

Tools: IntelliJ IDEA, VS Code, Postman, Git, GitHub, Maven, AWS

Concepts: Data Structures and Algorithms, SDLC, Agile, Unit Testing (JUnit), CI/CD

Databases: MySQL, PostgreSQL, MongoDB

PROJECTS

Brewly - Full-Stack POS & Billing System | *Spring Boot, PostgreSQL, React, Spring AI*

- Built a café management platform with POS billing, real-time dashboard analytics, menu/inventory management with recipe auto-deduction, and calendar-based event booking
- Implemented JWT + Google OAuth 2.0 authentication, data-driven AI insights (revenue forecasting, peak hour analysis, stock depletion prediction), and Excel export functionality
- Developed an AI-powered Virtual Assistant using Spring AI Function Calling, enabling users to query live business metrics (revenue, order counts) and receive real-time technical support via a natural language chat interface

Axion - EV Fleet Telemetry & OTA Platform | *Python, Spring Boot, Kafka, Redis*

- Built a real-time EV telemetry platform processing 1,000+ events/min using Kafka event streaming.
- Developed a Redis-backed digital twin engine maintaining live state for 100+ vehicles.
- Implemented a rule-based vehicle health scoring system (0–100) using battery and temperature metrics.
- Simulated OTA updates with canary rollouts and failure-handling workflows.

JSON Parser | *Java, JUnit*

- Developed a Java JSON parser supporting datasets with 10,000+ nested nodes.
- Implemented schema validation and a query engine with full JUnit test coverage.
- Optimized tree traversal and indexing to improve parsing performance by 45%.

CERTIFICATIONS

- **AWS Academy Graduate:** AWS Academy Cloud Foundations
- **HackerRank Certified:** Java and Python
- **IBM SkillsBuild:** AI Fundamentals (Cisco Networking Academy)
- **Spring Framework, Spring Boot**

ACHIEVEMENTS

- Solved 700+ DSA problems across coding platforms.
- Selected for GSSoC (GirlScript Summer of Code) in Open Source / AI Agent tracks.
- Selected for State Level Regional Round in OpenAI Academy Hackathon.
